NEMATODES IN SOIL ECOSYSTEMS

Selected papers from the 24th European Society of Nematologists' Symposium

Guest editors: B.S. Griffiths and D. Trudgill
Scottish Crop Research Institute, Invergowrie, Dundee DD2 5DA, United Kingdom

Foreword vii

Utility of nematode community analysis as an integrated measure of the functional state of soils: perspectives and challenges
K. Ritz and D.L. Trudgill 1–11

The Maturity Index, the evolution of nematode life history traits, adaptive radiation and cp-scaling
T. Bongers 13–22

The influence of nematodes on below-ground processes in grassland ecosystems
R.D. Bardgett, R. Cook, G.W. Yeates and C.S. Denton 23–33

Effect of an artificial metal pollution on nematode assemblage of a calcareous loamy chernozem soil
P. Nagy 35–43

Effects of the nematofauna on microbial energy and matter transformation rates in European grassland soils
K. Ekschmitt, G. Bakonyi, M. Bongers, T. Bongers, S. Boström, H. Dogan, A. Harrison, A. Kallimanis, P. Nagy, A.G. O'Donnell, B. Sohlenius, G.P. Stamou and V. Wolters 45–61

Simulated climate change affecting microorganisms, nematode density and biodiversity in subarctic soils
L. Ruess, A. Michelsen, I.K. Schmidt and S. Jonasson 63–73

Grazing in a porous environment: 1. The effect of soil pore structure on C and N mineralization
J.H. Görres, M.C. Savin, D.A. Neher, T.R. Weicht and J.A. Amador 75–83

Grazing in a porous environment. 2. Nematode community structure
D.A. Neher, T.R. Weicht, M. Savin, J.H. Görres and J.A. Amador 85–99

REGULAR PAPERS

A disposable corer for sampling organic soils
K.H. Venner and D.C. Malcolm 101–104

Interspecific complementary and competitive interactions between intercropped maize and faba bean
L. Li, S. Yang, X. Li, F. Zhang and P. Christie 105–114

Low-molecular-weight aliphatic carboxylic acids in soil solutions under different vegetations determined by capillary zone electrophoresis
B.W. Strobel, I. Bernhoft and O.K. Borggaard 115–121

Elevated [CO_2], temperature increase and N supply effects on the accumulation of below-ground carbon in a temperate grassland ecosystem
P. Loiseau and J.F. Soussana 123–134

Iodate and iodide effects on iodine uptake and partitioning in rice (*Oryza sativa* L.) grown in solution culture
C.L. Mackowiak and P.R. Grossl 135–143

Vertical and horizontal development of the root system of carrots following green manure
K. Thorup-Kristensen and R. van den Boogaard 145–153

Phytostimulatory effect of *Azospirillum brasilense* wild type and mutant strains altered in IAA production on wheat
S. Dobbelaere, A. Croonenborghs, A. Thys, A. Vande Broek and J. Vanderleyden 155–164

Metal speciation in xylem exudate of *Lycopersicon esculentum* Mill – technetium
G.C. Krijger, P.M. Van Vliet and H.T. Wolterbeek 165–173

Nitrogen and phosphorus requirement of the microbiota in soils of the Bornhöved Lake district
O. Dilly 175–183

The significance of root growth on cotton nutrition in an acidic low-*P* soil
C.A. Rosolem J.P.T. Witacker, S. Vanzolini and V.J. Ramos 185–190

Continuous monitoring of rhizosphere respiration after labelling of plant shoots with $^{14}CO_2$
C. Nguyen, C. Todorovic, C. Robin, A. Christophe and A. Guckert 191–201

Chromium mobilization and plant availability – the impact of organic complexing ligands
S. Srivastava, S. Prakash and M.M. Srivastava 203–208

Effects of sulphur nutrition on growth and nitrogen fixation of pea (*Pisum sativum* L.)
F.J. Zhao, A.P. Wood and S.P. McGrath 209–219

Volume contents 221–222

Author index 223

Instructions for authors 225–229
